

November 27, 1934.

Mr. B.O. Colton Jr., Commissioner,
Roosevelt, Utah.

Dear Mr. Colton:

I am enclosing herewith, a copy of a letter received this morning from the Colorado Park Irrigation Company, relative to the distribution of water of Uintah and White Rocks rivers. In order to answer this letter, I must of necessity know the quantity of the water available from these sources to fill these rights, together with other information that may effect the division of this water. I would therefore appreciate your letting me know who, in your opinion, is entitled to the water under present conditions.

Also, I am desirous of getting any information you may have relative to the Moore's reservoir referred to in the letter, for I have no knowledge at present of said reservoir right.

Yours very truly,

T.H. Humpherys.
STATE ENGINEER.
